The Millman Scholarship

Financial and mentoring support to help enrich your university studies

The Millman Scholarship gives undergraduate students the opportunity to benefit from the expertise and experience of world leading industrial and materials researchers.

A scholarship is awarded each year to a student from the Tees Valley that:

- > Is planning to study, or is already studying materials, or a related discipline, at undergraduate level.
- > Is demonstrably excellent in their academic capabilities.
- > Has the potential to make a significant contribution to industry.
- > Is committed to applying their academic degree in industry in the UK.

Benefits of the scholarship:

- > Practical and academic support throughout your degree course.
- > An annual bursary for the duration of your degree course.
- > A salaried summer industrial placement.
- > Mentoring support from an industrial supervisor.
- > An invitation to attend the annual symposium of the Institute's Doctoral Academy.
- > Support in the provision of a masters level project, if applicable.
